GORLE BALAKRISHNA

Data Science | Software Development

Email: balakrishnagorle2007@gmail.com
Phone: +91 8185099015
Location: Visakhapatnam, Andhra Pradesh, India
Portfolio: balakrishna-portfolio.vercel.app
GitHub: github.com/bk-2007

PROFESSIONAL SUMMARY

B.Tech student (Computer Science & Data Science) with hands-on exposure to data preprocessing, data visualization, and student performance prediction reporting. Skilled in Python, SQL, React, Next.js, Node.js, and Git/GitHub, with project experience in analytics dashboards, real-time chat, and full-stack web platforms deployed on Vercel.

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, SQL, JavaScript

Web Technologies: React, Next.js, Node.js, HTML, CSS, Firebase, Socket.io

Data Science: Data Preprocessing, Data Visualization, Student Performance Prediction, Power BI, Excel

Tools & Platforms: Git, GitHub, Vercel, VS Code, MySQL, Google Sheets, Figma, Canva

Professional Skills: Problem Solving, Critical Thinking, Adaptability, Public Speaking

Languages: English, Telugu, Hindi

EXPERIENCE

Student Ambassador | Unstop — Present

- Represent Unstop on campus, promoting hackathons, competitions and internship opportunities to fellow students.
- Drive student awareness and participation in Unstop events through peer outreach and social media.

Data Science Intern | IBM

- Performed data preprocessing to prepare datasets for analysis.
- Explored data visualization techniques to communicate patterns and insights.
- Created a student performance prediction report estimating whether a student would pass or fail.

PROJECTS

Nova Cart – Local Commerce Intelligence Platform | *Next.js, React, Data Visualization*

- Built a 9-module analytics dashboard (Overview, Inventory, Stores, Operations, Customers, Retention, Promotions, Impact) diagnosing stock-outs, cancellations and churn across 620 partner stores.
- Visualized KPI trends, customer and store survey signals, and a cause-and-effect churn analysis; added a scenario simulator and customer shopping flow. Deployed on Vercel.

ChatWave – Real-Time Chat Application | *Next.js, Firebase, Socket.io*

- Developed a real-time chat web application using Next.js, Firebase and Socket.io; deployed on Vercel.

Eventraa – Event Web Application | *React, Web Development*

- Built and deployed a responsive web application on Vercel.

AlumConnect – Job Portal & Alumni Networking Platform | *Next.js, React, Tailwind CSS*

- Built a platform connecting students, alumni and recruiters with job search, application tracking, referrals and mentorship messaging.
- Developed 10+ responsive pages (dashboard, alumni directory, events, company profiles); deployed on Vercel.

EDUCATION

B.Tech, Computer Science & Data Science (CSD) — Currently Studying
Anil Neerukonda Institute of Technology & Sciences (ANITS), Visakhapatnam

Intermediate (MPC) | Sri Chaitanya Junior College | 94.7% — 2022 – 2024

SSC | Sri Gurukula Vidyalayam, Palasa — 2017 – 2022

CERTIFICATIONS & ACTIVITIES

- Full Stack Web Development and Data Science – Intrnforte
- Basic Python – HackerRank
- College Annual Fest Coordination (SPIRIT) – ANITS
